The type system

Use typography to present your design and content as clearly and efficiently as possible.

CONTENTS

Type scale

Applying the type scale

Type scale

The material and design type scale includes a size range of compatible styles, along with two contrasting weights that support the needs of your product and its content.

Type scale generator

Powered by <u>Google Variable Fonts</u>, the type scale generator is a tool for creating type scales and corresponding code. Any font you choose is automatically sized, contrasted and optimized based on Material typography guidance for readability.
